## Adapters and adapter cables for the parameterisation units and NORDCON

The following table lists the adapters and adapter cables required for the use of the different parameterisation units and the NORDCON software from NORD DRIVESYSTEMS. The assignment of the adapters to the individual frequency inverter series and the used parameterisation units and NORDCON can be found in the other tables.

### NOTICE

#### Validity of this document

This document is only valid in combination with the operating instructions for the relevant frequency inverter. Safe commissioning of this module and the frequency inverter depends on the availability of this information.

### Information

#### Discontinued products

Note that some of the NORD DRIVESYSTEMS' products listed in this TI have been discontinued and thus are no longer available.

Technical Information / Datasheet	Parametrierboxen und NORDCON			
Adapter and adapter cables	TI 80_0046	V1.0	4823	en

## Information

### Connection to diagnostic/communication interfaces

For the connection to the diagnostic interface (RJ12 socket) of the frequency inverter, only use the end of the connection cable ( [TI 275274601](#) ) with the RJ12 plug without the latching tab. Otherwise, the plug may get jammed in the RJ12 socket of the frequency inverter.

If necessary, remove the latching tab according to the figure and make sure that no burr remains.

## Information

### RJ12 connection cable

A standard RJ12 connection cable (RJ12 (6/6) - RJ12 (6/6), 1:1 assigned) is required for the connection of the parameterisation units to the frequency inverter. It is included in the scope of delivery of the following ParameterBoxes:

SK PAR-3E, SK PAR-3H, SK CSX-3E, SK CSX-3H

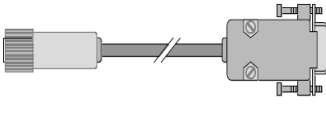

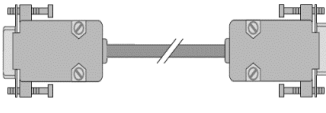

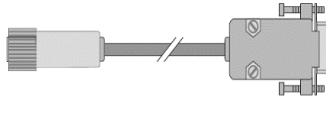

## Information

### Firmware version of the ParameterBox

If “v!” is displayed, the firmware version of the ParameterBox must be updated. Otherwise, individual parameters may not be displayed.

In this case, contact your NORD Service contact person. You will find your contact person listed on your order confirmation. Additionally, you will find further possible contact persons using the following link: [www.nord.com/contact](http://www.nord.com/contact).

## Adapter list for connection cables

Ser. no.	Figure / Scope	Designation	Article number / Link
1		Connecting cable SK TIE4-RJ12-RJ12 RJ12 plug (6/6) → RJ12 plug (6/6) 1:1 assigned, 2 m	275 274 601  <a href="#">TI 275274601</a> (enclosed with parameterisation units)
2		Connecting cable RJ12/M12 SO RS485 L=0,3M M12 socket → RJ12 plug A-coded, 0.3 m	278 910 230  <a href="#">TI051_278910230</a>
3		Connecting cable SK TIE4-M12-RJ12 M12 plug → RJ12 plug A-coded, 2 m	275 274 600  <a href="#">TI051_275274600</a>
4		Connecting cable Adapter M12 SO WIRES M12 socket → Free wires A-coded, 0.22 m	278 910 200  <a href="#">TI051_278910200</a>
5		Connecting cable P-BOX VECTOR SUB-D 9 socket → Free wires 3 m	278 910 020  <a href="#">TI051_278910020</a>
6		Connecting cable M12 SO / D-SUB SO M12 socket → SUB-D 9 socket A-coded, 0.22 m	278 910 210  <a href="#">TI051_278910210</a>
7		Connecting cable P-BOX RS232 VECTOR SUB-D 9 plug → SUB-D 9 socket 2 m	278 910 030
8		Connecting cable P-BOX RS485 VECTOR M12 plug → SUB-D 9 socket A-coded, 3 m	278 910 060  <a href="#">TI051_278910060</a>

**Adapter list for interface converters and USB cables**

Ser. no.	Figure / Scope	Designation	Article number / Link
9		Connecting cable USB / 5V Supply → SK IC1-232/485 0.36 m	278 910 220 <a href="#">TI051_278910220</a>
10		Connecting cable SK CE-USB-C-PC-USB-3M USB Type-C Plug series A → Plug series B	275 292 100
11		Connecting cable SK TIE4-RS232-USB USB Type-A → SUB-D 9 plug Including RJ12/SUB-D SO RS232 l=3m	275 274 604 <a href="#">TI 275274604</a>
12	 Connecting cable RJ12 short	Interface converter SK TIE4-RS485-RS232 RJ12 socket → RJ12 socket Including RJ12 plug → RJ12 plug, 0.1 m	275 274 603 <a href="#">TI 275274603</a>
13		Connecting cable PC RJ12/SUB-D SO RS232 l=3m SUB-D 9 → RJ12 plug	278 910 240 (enclosed with SK TIE4-RS232-USB)
14		Connecting cable USB USB 2.0 Plug series A → Plug series B	200 816 300 (enclosed with SK PAR-3H)
15		Interface converter SK IC1-232/485 SUB-D 9 socket → SUB-D 9 plug	276 970 020

## Assignment of the handheld or installation/attachment parameterisation units for NORD inverter

- 1) The SK PAR-2E and SK PAR-2H ParameterBoxes can control the NORDAC FLEX only after a hardware revision. The market launch of the revised ParameterBoxes took place during the fourth quarter of 2009.
- 2) SK 700E < 30 kW: safe operation only ensured with external voltage supply of the parameterisation units
- 3) SK PAR-5H and SK PAR-5A: firmware version V 5.0 and higher
