INTERNATIONAL CERTIFICATIONS
- Underwriters Laboratories Recognized component:
- Canadian Standards Association approved for most installations in Canada:
- CSA approved according to both US and Canadian standards:
- European Union (EU) member states approved according to Low Voltage Directive:
- China Compulsory Certification
- Brazil Alto Rendimento Certification
- Australian MEPS certification

60 Hz Line Frequency - SF 1.15
230/460 - 3 phase: 0.16 to 30 hp
460V - 3 phase: 40 to 200 hp
575V - 3 phase: 0.16 to 200 hp

50 Hz Line Frequency - SF 1.0
230/400V - 3 phase: 0.12 to 2.2 kW
400/690V - 3 phase: 3 to 90 kW

Global Vision, Local Support

NORD makes its wide product range easily available through a global network that includes representation in over 60 countries. By providing all of our customers with prompt delivery, and expert support services, we are firmly committed to exceeding customer expectations and being responsive to the ideas and specifications of every customer, anywhere in the world.

Mounting Styles
- Integral motor for use with speed reducer
- NEMA C-face flange
- NEMA T-Frame footed motor mount
- DIN B5, IEC FF metric face flange mount
- DIN B14, IEC metric face flange mount
- DIN B3, IEC metric foot mount

Inverter Duty & Inverter Duty Options
- Motors conform with NEMA MG-1-2006 Section 31.4.4.2
- Insulated with double coated magnet wire
- Speed range 5:1 constant torque from 60Hz to 12Hz
- 10:1 speed range : constant torque from 60Hz to 6Hz
- 20:1 speed range : constant torque from 80Hz to 4Hz
- 1000:1 speed range : constant torque from 60Hz to 0Hz
- Blower cooling fans
- Incremental encoder

Standard Construction Features
- Ambient temperature of 40° C (104° F)
- 3300 feet of elevation without derating
- Class B temperature rise : 105° C (221° F)
- Class F insulation system : 155° C (311° F)
- IP55 enclosure protection
- Totally Enclosed Fan Cooled (TEFC)
- Low rotor inertia
- Ball bearings & high temperature bearing grease
- Squirrel cage rotor
- Dynamically balanced, anti-corrosion coated rotor
- Corrosion resistant aluminum alloy housing
- 1045 carbon steel shaft with shaft lip seals on both end bells
- Sealed stator to end bell connections
- Gasket sealed conduit boxes
- Four conduit box & threaded cable entry locations
- Double coated magnet wire insulation
- Insulation lined slots
- Inorganic insulation for tropical protection
- Phase paper & separators
- First turn winding protection
- Varnish dipped stator
- Non sparking low inertia fan
- Terminal block power connector
- Reverseable rotation direction

Product Options
Thermal Winding Protection Options
- Thermistat Sensor (TW)
- Thermistor Sensor (TF)

Brakemotors
- Ready to go…wired by factory
- Manual hand release lever included
- Downward adjustable torque is included, specification is required
- AC to DC voltage rectifier is included
- IP55 enclosure protection is included

Brakemotor Options
- NSD+ severe duty protection
- Corrosion protection (RG)
- Dust protection (SR)
- Lockable hand release lever (FHL)
- Oversize & Undersize brake
- Inverter duty modifications
- Faster torque release enhancement
- Faster torque stopping enhancement
- Current sensing relay (IR)
- Heating circuit (BSH)
- Micro switch wear indicator
- IP 66 enclosure

Environmental Protection Options
- NSD+ severe duty protection
- Encapsulated windings for IEEE45 Marine Duty
- IP66 enclosure
- End bell drain holes
- Drip cover (RD)
- Wind protected double drip cover (RDD)
- Space heater (SH)
- Epoxy coated interior surfaces

Other Options
- Class H insulation system
- Over-running clutch (FK)
- Anti-rotation backstop (RLS)
- Extended motor shaft (WE)
- High inertia metal fan for soft start (Z)
- Quick power disconnect plug (MS1)
